Expertise acquired over 39 years...

A tireless quest for perfection

In 1976, a small group of enthusiasts built the first ever climate-controlled cabinet dedicated to wine storage. The EuroCave brand was born, and with it came an original and pioneering product, unknown elsewhere.

Since then, our teams have continued to innovate, in order to meet the most demanding requirements of both wine enthusiasts and professionals. New shapes, high-quality materials, advanced functions...

True to the spirit of its founders, EuroCave has been a source of major technological advances throughout the years.

Today, with a large network, a team of enthusiastic advisors and a high-performance factory, the brand has a world-wide presence.

That is why, with EuroCave, you can be sure of combining performance, ease of use and aesthetics. For superior safety, design and even greater enjoyment.

A groundbreaker in 1976, EuroCave is now more than ever the only name you need to know in the world of wine cabinets.

The 6 advantages offered by EuroCave

For optimal maturing of your wine,
EuroCave respects the requirements of your finest wines.

1 A constant temperature

The EuroCave thermal control system

This Twin Process system is made up of a dual hot/cold circuit. It recreates the specific climate of the best natural cellars. Thanks to high precision sensors, Twin Process carries out real time corrections to fluctuations in temperature. In this way, a constant temperature of 10° - 14°C, is ensured inside the cabinet whatever the external environment (0° - 35°C). A uniform temperature is ensured by the walls, made of aluminium, well known for its excellent thermal conductivity.

2 A suitable level of humidity

A uniform, controlled level of humidity

EuroCave's Hygro+ and NeoFresh systems ensure that your wine maturing cabinet has a level of humidity above 50%, to prevent your corks from drying out and, as a result, irreversible oxidation of your wine. Furthermore, EuroCave cabinets are the only cabinets to be fitted with an automatic display and a humidity alarm system.

3 Effective thermal insulation

A cellular insulant to protect your wine from the elements

CQI - insulant, combined with thick walls (5cm) form a double thermal barrier, which ensures optimal protection against temperature variations. Insulation is essential as it prevents temperature fluctuations and reduces power consumption. EuroCave's insulation provides protection equivalent to almost 2 metres of earth, as is the case in a natural cellar.

4 A permanent ventilation system

The breather effect

EuroCave wine cabinets benefit from a ventilation system with breather effect, very similar to the ventilation system of a natural cellar. The air circulates via 2 openings located at the top and bottom of the cabinet. The air enters through the top opening, fitted with a charcoal filter which purifies the air and prevents bad odours. Furthermore, the constant renewal of air prevents mould from forming in your cabinet.

5 An anti-vibration system

Protection against premature wine ageing

Vibrations disturb wine's maturing process. The EuroCave VES (Vibration Exclusion System) provides your cabinet with a barrier against vibrations with several levels of protection. The cabinet compressor is separate from the body, which prevents vibrations being transmitted to it. Furthermore, the shelves are fitted with several shock absorbers and the cabinet feet ensure complete stability.

6 Storage capacity

Storage specifically designed for wine bottles

Contrary to other cabinets in the electrical goods market, EuroCave cabinets are specifically designed to store wine bottles. The bottles are stacked at double depth (top and tailed) and are perfectly supported in the specially designed recesses. A steel frame and stiffener strengthen the structure of the cabinet to allow it to support the weight of the bottles and prevent the body from buckling.

Compact

Flush-fitting and save-spacing guaranteed

The free standing version of Compact range cabinets is ideal for space saving, owing to its specific dimensions. The flush-fitted version is ideal for the kitchen.

- Dimensions adapted to the requirements of kitchen designers.
- Available for maturing cabinets (1-temperature) or wine serving cabinets (multi-temperature).
- You do not have to cut extra ventration holes in your work surface for the small model. There is a front venting system at the base of the cabinet, which must not be covered.
- Possibility to fit the cabinet with a technical door (solid, glass, silver door).

Model: V 059 glass door / S 059
 Size(mm): 822h x 595w x 566d
 Capacity: Approx. 38 bottles

Model: V 259
 Size(mm): 1782h x 595w x 580d
 Capacity: Approx. 160 bottles

Model: V 259 glass door / S 259
 Size(mm): 1782h x 595h x 580d
 Capacity: Approx. 118 bottles

Première

Everything you need at your fingertips

With its simple lines and original designer control panel, the Première range stands out straightaway. This wine maturing range guarantees a constant temperature and level of humidity, so you can rest assured that your wine is maturing in optimal conditions.

- All the cabinets are fitted with a simple to use electronic control panel which allows you to easily see and programme the temperature of your cabinet.
- Three sizes for 3 optimised capacities: the small V101 model allows you to store up to 100 bottles. The medium-sized V166 model has capacity to store 168 bottles whilst the large V266 model offers very large capacity of up to 223 bottles.
- Its reversible door means that the cabinet will adapt to any location.

Model: V-101
Size(mm): 950h x 655w x 690d
Capacity: Approx. 84 bottles

Model: V-166
Size(mm): 1444h x 655w x 690d
Capacity: Approx. 160 bottles

Model: V-266
Size(mm): 1744h x 655w x 690d
Capacity: Approx. 214 bottles

Model: V-266
Size(mm): 1744h x 655w x 690d
Capacity: Approx. 174 bottles

New Premiere

Simple yet expert

A range allows you to take your first step to discover what EuroCave has to offer. Low energy consumption that contributes to protecting the environment. Contemporary colours of the door... deep black, passionate red, satin silver.

Model: V-PREM-S
Size(mm): 960h x 680 x 690d
Capacity: Approx. 74 bottles

Model: V-PREM-M
Size(mm): 1480h x 680w x 690d
Capacity: Approx. 160 bottles

Model: V-PREM-L
Size(mm): 1825h x 680w x 690d
Capacity: Approx. 182 bottles

Model: V-PREM-L
Size(mm): 1825h x 680w x 690d
Capacity: Approx. 182 bottles

Pure

With Pure, store your wine naturally

A range of wine cabinets which contributes to caring for the environment. Elegant finishes allowing the cabinet to complement any interior.

- Up to 55% less energy consumed compared to a traditional cabinet.
- Low noise levels, for minimal disturbance.
- 3 cabinet sizes able to store 74 - 234 bottles.

Model: V-PURE-S
Size(mm): 960h x 680w x 690d
Capacity: Approx. 74 bottles

Model: V-PURE-M
Size(mm): 1480h x 680w x 690d
Capacity: Approx. 141 bottles

Model: V-PURE-L
Size(mm): 1825h x 680w x 690d
Capacity: Approx. 213 bottles

Model: V-PURE-L
Size(mm): 1825h x 680w x 690d
Capacity: Approx. 182 bottles

Revelation

A range of cellar "cozy" all options

"The finesse of one's movement reveals that of his feelings." - African proverb The Revelation range provides wine lovers with virtually custom solutions! It offers EuroCave's latest patented innovations in terms of wine cabinet features:

And then there was light...

Sparkling presentation for your bottles - this is what the Revelation range offers. A strip of light all around the cabinet bathes your bottles in a halo of amber which dramatically highlights the inside of the cabinet... UV-free lighting to safely accentuate your bottles.

Smooth handling

By creating this new range, we wanted to offer a new generation interior layout, for improved ergonomics and ease of use. Discover how to best arrange, store and organise your wines.

Identify your wines

New epoxy-coated steel labels on which you can write information about your precious bottles. Up to 6 detachable labels per shelf. White felt-tip pen supplied (erasable).

Sliding shelf

Capacity for up to 12 bottles

Designed for improved aesthetics and fluidity of use, the new structure of the sliding shelf conceals all of its technical features beneath its stylish curves. It has a soft-close device which slows the speed of the shelf at the end of travel. Holding your bottles safely and securely.

new generation Main du Sommelier

This structure in two materials cradles your bottles and protects them from vibration. It is detachable, allowing it to adapt to your storage requirements in terms of bottle shape and number. The Main du Sommelier allows easy placement of your bottles. User-friendly, your bottles will slip easily into place.

Model: V-REVEL-L
Size(mm): 1825h x 680w x 690d
Capacity: Approx. 182 bottles

La Petite

The first wine bar in a wine serving cabinet

A real gem of a cabinet, la Petite is attractive, innovative and ingenious.

- Allows you to bring 12 bottles of wine (white or red) to the correct serving temperature for wine ready to be served whatever the circumstances.
- Set with 2 detachable oxygen extraction heads, la Petite allows you to store 2 opened bottles for up to 10 days, by protecting them from oxidation.
- The temperature is easy to set thanks to the tactile control panel on the front, with backlit keys.
- Available in black, with a glass door and elegant glass top. Discover its many facets.

Technology and expertise

La Petite benefits from all of EuroCave's expertise:

- A choice in the temperature of the bottom and top of the cabinet*.
- A touch panel with backlit keys outside of the cabinet.
- 10 Main Du Sommelier anti-vibration ergonomic bottles supports.
- The compressor enables a temperature difference of 10°C between the bottom and top of the cabinet.
- 2 oxygen extraction heads with constant vacuum monitoring.
- Permanent lighting for your bottles.
- An elegant glass cover.
- Attractive finish at the back.
- Available in black with a full glass straight door only.

	Temperature zones	Temperature setting range	Oxygen extraction	Length of time opened bottles can be stored	Dimensions (mm)	Weight (kg)	Temperature range	Consumption per 24h (KWh)**
S013	Multi-temperature	6°C to 22°C*	Vacuum pressure 300 Mbars min.	Up to 10 days	H850xW297 xD462	25	Min T° : 18°C Max T° : 30°C	0.44

* The compressor enables a temperature difference of 10°C. Adjust the setting to 6°C and the top of your cabinet will automatically adjust to 16°C. In the same manner, if you adjust the bottom of the cabinet to 12°C, the top will display a temperature of 22°C.
** Consumption per 24 hrs measured with an external temperature of 20 °C.

wineART

The New Home Wine Bar

Wine Art... guarantee that your wine will be at a perfect serving temperature thanks to the service temperature system... allows all of the flavours of your wine to remain intact, allows you the freedom to drink a bottle opened several days ago at your own pace, thanks to the air vacuum system.

TWO BOTTLES AT AN IDEAL SERVING TEMPERATURE

In order for wine to fully develop and release all of its flavours, it must be served at the correct temperature. Therefore, red wine needs to be served at about 16°C and white or rosé wine at about 8°C.

The exclusive Wine Art system has two separate compartments, allowing you to bring 2 bottles of red and/or white to the correct serving temperature.

FLAVOUR RETAINED SEVERAL DAYS AFTER OPENING YOUR WINE

Once opened, your bottles can be put back in a Wine Art compartment. The innovative air extraction system ensures that your wine is protected from risk of oxidation up to a maximum of 10days after it has been opened.

Technical specifications

Reference	Dimensions (HxWxD)	Weight	Power Supply	Capacity
WINE ART	478x245x248(mm)	5.48 kg	230VAC 50Hz	70W

Operating Ambient Temperature Range: 18 - 25°C

Modulorack

An exclusive system for storing your cases

The EuroCave Modulorack is an unique system for storing your wines directly in their original cases. Thanks to its exclusive sliding bottle tray system, all of your cases are immediatly and easily accessible.

What is a Modulorack?

Designed to hold two cases of 12 bottles, the Modulorack is floor secured. Several Moduloracks can be joined together to increase your storage capacity, while still ensuring total stability when handling bottles.

Your cases of wine are difficult to handle and your "crus" are impossible to reach?

With the Modulorack modular system, each bottle become rapidly accessible.

Sliding trays to make life easier

Based on the same principle as the sliding bottle shelves in the wine cabinets, the Modulorack has an exclusive sliding tray system for storing cases of wine.

- Unit weight: 8.2kgs
- Assembled: 500mm(H) x 397mm(W) x 500mm(D)
(delivered without cases)

Modulosteel

The contemporary storage system that can be personalised in an infinite number of ways!

EuroCave is adding to its range of storage systems with Modulosteel: easy to assemble modules which can be attached to each other in an infinite number of ways. A new product with clean, modern lines for a decidedly contemporary feel.

A modular design

Customisable, Modulosteel can be assembled in an infinite number of ways with its modules, which attach to each other. Can be adjusted to half its height for vaulted cellars or low ceilings!

- › One bottle deep storage
- › Material: Black painted steel
- › Treated with epoxy resin to protect against damp
- › 17 storage levels, each holding up to 8 bottles

Technical features

Dim. of one storage unit	H2000 x W720 x D505 mm
Dim. of one storage half unit	H1160 x W720 x D505 mm
Centre spacing width	600 mm
Body external dimensions	H664 x W595 x D584 mm
Top cover external dimensions	H25 x W658 x D412 mm
Weight of one metal post	12.5 kg
Weight of one central bottle storage section	13.5 kg
Weight of body +shelves	46.5 kg
Weight of top cover	4.5 kg

A strong structure

The structure was designed to be easy to assemble. Three fastening systems ensure complete stability.

- › 4 adjustable cylinder bases
- › 1 screw system at the top of each metal post. To be fixed directly to the wall, using an alignment washer
- › 1 slide system at the top of each metal post in order to set and adjust any possible gap between the wall and the storage unit

Optimised storage

2 types of storage: "storage" and/or "display" mode. Simply move the steel tubes and fix the Main du Sommelier supports in the desired position.

Two optional extras available

A choice of finishes to optimise your storage area and give it a more homely feel.

Optional extra no.1

- › One body + 6 ACMS shelves
- › Increase your storage capacity: 72 bottles
- › Material: panels of black damp-proof melamine-faced MDF

Optional extra no.2

- › Finishing top cover
- › Easy to fit, on top of the central bottle storage section. Can be used on the structure at full or half-height.
- › Material: panels of black damp-proof melamine-faced MDF

Cigar

A Cigar, a timeless moment...

Enjoying a cigar, is not only to savour all of its flavour but also to enjoy a special relationship with time.

The time taken to appreciate, to inhale, to gently roll between the fingers, to prepare before smoking, these are special moments for all lovers of fine cigars. Unforgettable shared moments. Whilst smoking a cigar, let time do what it will...

Thanks to an exclusive temperature and hygrometry regulation system, EuroCave guarantees optimum preservation of your cigars:

- A constant temperature between 9°C (48°F) and 18°C (64°F).
- Hygrometry between 65% and 75%.

To simplify service, these cabinets are equipped with a wooden presentation tray and a sliding drawer.

Model: CC 064
 Colour: Buffle
 Size: 950mm(H) x 655mm(W) x 690mm(D)
 Capacity: Approx. 40 boxes

THE PLEASURE OF PRESENTING YOUR CIGARS

The Cigar Humidor has been designed to be evolutionary. Several kinds of layouts are on offer, in order to best meet your requirements.

Presentation tray on sliding rack (in rot-proof exotic wood).

Storage drawer
